Hiring Manager

Kookar AI

Gurgaon, India

Subject: Application for Product Analyst Intern Role

Dear Hiring Manager,

I am writing to express my keen interest in the Product Analyst Intern position at Kookar AI. The opportunity to contribute to a pioneering AI product that is reshaping household kitchen management genuinely excites me. The blend of AI, user-centric product development, and impactful problem-solving aligns perfectly with my interests and career goals.

Currently entering my final year of a Bachelor's in Computer Science, I have worked on multiple technical and user-focused projects that reflect my analytical mindset and problem-solving skills. Projects like Scorelone AI, an answer sheet evaluator using OCR and logic-based scoring, and Medical Automation, a system for automating clinic appointments, gave me hands-on experience in analyzing user behavior, gathering feedback, and optimizing product flow. I've also developed a browser extension, SafeClick, and a farmer support app, Kisan Pragati, further strengthening my skills in building practical solutions that serve real-world needs.

What excites me most about Kookar AI is its commitment to customer obsessiveness and innovation in an untouched space - using AI and platforms like WhatsApp to solve everyday kitchen coordination challenges. I am eager to contribute to data analysis, feature tracking, and product

performance monitoring while learning directly from experienced mentors. I thrive in fast-paced environments and am enthusiastic about the prospect of growing into a future AI Product Manager under your guidance.

Thank you for considering my application. I would welcome the opportunity to bring my analytical skills and user-focused mindset to the Kookar AI team and contribute meaningfully to your mission. I look forward to the possibility of discussing this further.

Warm regards,

Harsh Singh
